Mr. J. E. Curry,

Chief of Police.

Dear Sir: Many thanks for giving me the information I asked you about the assassination of the late President Kennedy. At that time I was about a hundred odd miles away in a place called Kissimmee, and talking to the judge of the county court when I saw the bartender put the flag at half mast, and asked who the flag was half mast for. I thought it could be for some local dignitary, but he said it was for President Kennedy. If ever I am near Dallas I will make an effort to thank you personally.

Very truly yours

Hugh Butler.

To the Dallas Police Dept.
Dallas, Texas

Gentlemen:

Congratulations, I'm glad
you got hold of Oswald's
diary before the Warren
Commission did. I do hope
you are investigating the
murder of Pres. Kennedy
on your own - the farce
Warren put on is so disgust-
ing one fails to find words
to describe it. We all knew
the verdict when Warren
was chosen, for he was
picked to cover up the
truth - if the truth came

out no doubt the Americans would turn on the rats behind it all and do as Hitler did.

We all know that Ruby is not insane - it's the only way to save him and these rats are determined to save him at any cost. Oswald was only the goat for these rats.

The shame that has been heaped on Dallas should be vindicated - these rats care little who they hurt - they care nothing for the tears and heartaches of the Pres. family - they are going to rule the world regardless.

Will America ever awaken?
Too many unanswered
questions in Pres. Kennedy's
murder not to be a Red
plot - the folks who be-
friended them - that hoey
- the fact he hid in book-
store - who found the spot
and the information as to
route change - so many un-
answered whys - the Pres
stated at one time that Ruby
had a plane ready for
Oswald to leave for Mexico.
Both were friends of whiskers
in Cuba. The fact that Pres
Kennedy decided to have
a show down with Castro
no doubt spurred the killing

if Barry Goldwater wins
the election in Nov. no doubt
they have another dupe
ready to kill him.

I'm so glad the rats can't
intimidate the Dallas police
Dept. Glad Texas has some
backbone.

My nephew lives at Ft Worth
and his daughter is taking
nurses training in the Dallas
hospital where they took Pres
Kennedy.

It's high time we impeach
the members of the so called
Suprem Court - they are what
the Red conspiracy want.

Thank you again for
getting the diary. Mrs. Chas.
